

Greetings from Our Executive Director!

People say the only thing constant in life is change. Let's face it, many of us are resistant to change, especially if it's not by choice. Little things such as changing your hair style, your morning routine or larger changes such as jobs, buying a house or car all require an adjustment, even if by choice. Typically, our choice for change is exciting & welcoming!

If your faced with the decision to place your loved one in an Assisted Living Environment, often, its not by choice, but necessity. Feelings of guilt, sadness and even fear can be very overwhelming. We get so caught up in our own emotions, that we sometimes forget how our loved ones may be feeling. We try to be optimistic and supportive, but the reality for them is even more frightening. New surroundings, new faces, new routines. Nothing is familiar.

The good news...WE ARE HERE FOR YOU! We at Heritage House Assisted Living feel what you feel, share the same concerns and strive to make this new beginning something special. We are listening, planning and working diligently to make this change as easy as possible, for everyone. We appreciate your trust and look forward to serving you!

October brings phase one of our flooring update. The bathrooms in the main house are getting new toilets and vanities. The water heater upgrades have been completed. The water softener installation is complete.

*Listen! The wind is rising,
And the air is wild with leaves,
We have had our summer evenings,
Now for October eves!

OCTOBER BIRTH FLOWERS

October's birth flowers are the cosmos and the calendula or marigold. Cosmos is a symbol of joy in life and love and of peace. The calendula (aka garden, English, or pot marigold) represents winning grace, grief, or chagrin in the language of flowers.

OCTOBER BIRTHSTONE

The October birthstone is the Opal, which symbolizes faithfulness and confidence.

Gem-quality opals are known for their play of color, caused by the diffraction of light. They are available in several types, including black, fire, and white opals. Common opals do not shimmer.

Opals symbolize hope and purity and were once thought to improve eyesight or enhance intuition. Throughout history, the gem's reputation has oscillated between standing for luck and standing for lack of luck. According to some, those born in October are immune from any possible negative effects.
