

INNOVATION  
SENIOR  
MANAGEMENT

May 30<sup>th</sup>, 2020

Dear Residents and Families,

As you may be aware, the state is requiring us to test our employees for the COVID-19 virus. By June 5<sup>th</sup>, all our employees across all the portfolio will have been tested. All employees are being administered the active disease test that is conducted by taking a nasopharyngeal swab to the person's upper respiratory tract. These swabs are sent to a private lab for testing. We should have all test results back by the middle of the month. I am very proud of our employees and how quickly they have responded to this mandate.

We will be sending a quick survey to gauge from you how we are doing. There is a section that allows for comments. Please let us know if there is anything you would like for us to start, stop or keep doing.

We look forward to hearing from you.

Sincerely,

*Pilar Carvajal*
